How Immersion works

At both schools, French is spoken in all subjects during kindergarten, grades 1 and 2. English language arts is introduced in grade 3

There are several characteristics that define French Immersion Programs:

- ◆ French is acquired primarily by using it for meaningful communication within the school.
- ◆ *Students begin not knowing French.* The instructional strategies and materials are designed with that in mind.
- ◆ FI begins with intensive instruction in French by teachers fluent in French.
- ◆ French immersion students easily transfer what they have learned to English reading/writing and quickly develop strong skills.
- ◆ Parents can and do help their children in this program. Parent involvement helps children learn.

The Learning Advantage

French is a natural second language for many Canadians. Its strong presence throughout Canada makes it an important second language to learn.

Knowledge of a second language increases understanding and respect for other peoples and cultures. It increases educational opportunities through access to a wider range of educational institutions. Fluency in French provides a competitive edge in the Canadian job market.

French Immersion is a complete program offered from kindergarten to grade 12.
